Dear Sir

Subject: Green Filter Project on Buses

I write to confirm that we are still continuing to fit the Green Filter system to our buses vehicles as we have done since its introduction in 2001.

Since those vehicles have been fitted the Green Filter for sometime. Those engines have running smoother and quieter than before. It is nothing to show any harmful or damage to the engine. It is no any maintenance to the device such as cleaning or adjustment. Those vehicles fitted with the system have been smoke meter test and still show low emission. We believe those vehicles fuel consumption will be reduced.

Yours sincerely  
For and on behalf of  
Argos Bus Services Co.Ltd

Aaron Yeung  
General Manager
