Shatin, N.T.

Dear sir

Subject: Practical test of GF2000 Green Filter

Our members have installed your company product (Green Filter) for trail. Those coaches are including 12seats, 16seats, 24seats and 56 seats. After 14 months and certain mileage has been used. Those engines are running properly and no need maintenance for the device. Those fuel consumptions become lower before installed. Those coaches have achieved a significant reduction in exhaust pollution.

Since our members are mainly service to young children. Those coaches are running between schools and children's homes day by day. The exhaust pollution could be a direct affect to those children health.

For environmental friendly, we should support government to improve the air quality. Which can make a better and healthy future for children. Our association will strongly recommend the Green Filter to our members.

Yours truly,

Private Hire Car For Young children association Limited
